ULTiMA

Redefining Charcoal Excellence

> **Ultima Carbon:**

Leading producer of premium-quality, sustainable grill wood charcoal for various markets including wholesale, ceramic grill manufacturers, garden centers, specialized grill retail shops, and food retail shops.

> **Exceptional Quality:**

Our unique proprietary carbonization ovens and state-of-the-art sieving & packing line ensure that we meet the requirements of the most demanding customers with regard to both quality and appearance of the goods.

> **Sustainability:**

Ultima Carbon is 100% FSC certified and deeply committed to sustainable sourcing of the wood, caring about tackling climate change, protecting biodiversity, and the well-being of all stakeholders.

OUR MISSION STATEMENT

ULTiMA

Mission Statement:

Empowering our customers in their markets by providing the best quality product with great care for the environment and always at the right time!

Our Principles:

1. **Quality Excellence:** Delivering top-tier products that meet and exceed customer expectations.
2. **Environmental Stewardship:** Committing to sustainable practices that protect and preserve our planet.
3. **Customer Empowerment:** Supporting our customers with reliable products and services that enhance their market position.
4. **Innovation:** Continuously improving our processes and products to stay ahead in the industry.
5. **Integrity:** Upholding the highest standards of honesty and fairness in all our dealings.

ULTIMA

PREMIUM RANGE

We developed the Ultima brand Premium Range to serve the top end of the market, for those who share our vision and want to provide their customers with the highest level of grilling experience, whether it is HoReCa or grill geeks!

Being producers ourselves, we ensure that clients get the most competitive prices compared to those from distributors and traders.

Products in the Premium Range:

- Premium Mixed Hardwood Blend
- Superior Oak & Hornbeam Blend
- Pure Apple Charcoal
- WOOLtima Firelighters

ULTIMA

CUSTOM PACKAGING OPTIONS

Tailored Packaging Solutions:

- We offer an option of packing the same quality charcoals in private label bags or adopting our Ultima design as per customers' request.
- Language translations, adding customers' company details, and other customizations are available to meet specific market needs.

ULTIMA

PREMIUM MIXED HARDWOOD BLEND

ULTIMA

Extremely Large Pieces:

Our charcoal features large pieces that create an impressive, steady heat, perfect for serious grillers.

Eco-Friendly Choice:

Our charcoal is 100% FSC certified, ensuring sustainable and responsible sourcing of wood.

Professional's Choice:

Large pieces burn longer and provide a more consistent heat source, reducing the need for frequent refueling and enhancing grilling efficiency. The quality and size of our charcoal make it an appealing option for HoReCa, offering reliable performance and ease of use.

Balanced Grill Experience:

Hornbeam and oak have higher density, ensuring more energy, which means longer and hotter burning, while beech & ash facilitate quicker ignition, offering a well-rounded grilling experience.

SUPERIOR

OAK & HORNBEAM BLEND

Extended Burn Time & High Heat:

Made from the densest European oak and beech wood, carbonized for an extended period. Only the largest pieces are screened, ensuring exceptional burning qualities.

Safe for Family Grilling:

Pure, natural, and extra safe charcoal. High-temperature carbonization in advanced retort ovens removes harmful compounds, ensuring a clean grilling experience.

Eco-Friendly Choice:

Made from FSC-certified wood from sustainable Ukrainian forests. Advanced retorts require no kindling, ensuring efficient resource use and a minimized carbon footprint.

Perfect for Ceramic Grills:

Optimal particle size configured for the best use with Kamados and Big Green Eggs.

PURE

APPLE CHARCOAL

Quicker Ignition with a Touch of Real Apple:

Made from pure apple wood, carbonized for longer periods with a touch of real apple.

Safe for Family Grilling:

Pure, natural, and extra safe charcoal. High-temperature carbonization in advanced retort ovens removes harmful compounds, ensuring a clean grilling experience.

Sustainability & Social Responsibility:

Sourced from abandoned apple plantations, creating jobs for rural communities with zero impact on natural forests.

Perfect for Ceramic Grills:

Optimal particle size configured for the best use with Kamados and Big Green Eggs.

Feature	Details
Wood Types	100% Apple Wood
Grilling Time	2 hours - 3 hours

Certification	100% FSC
Wood Types	Oak, Ash, Birch, Hornbeam, Beech

BBQ RANGE

FOR WHOLESALE AND RETAIL MARKETS

Solutions for French and Scandinavian Markets:

Charcoal for markets where customers buy in volume:
Use of lightwood charcoal (birch, aspen, alder, and pine)
to optimize ROI for our B2B clients.

Product Benefits:

Consistent Quality: Our advanced carbonization and sieving processes ensure uniform particle size and high-quality charcoal, making it easier for retailers and wholesalers to meet customer expectations and reduce product.

ULTIMA CARBON

OVERVIEW

✔ **Unique Position:**

Ultima Carbon has a unique position against its competitors by being both the producer and the European distributor of charcoal.

✔ **Production Capacity:**

16 proprietary retort ovens with an annual capacity of 6,400 tons in regions of Lviv, Rivne, and Zhytomyr.

✔ **Experienced Purchasing Team:**

Sources from all Ukrainian producers of wood charcoal and briquettes.

✔ **Logistics Expertise:**

Expertise in road, rail, marine container, and sea bulk transportation ensures flexible, reliable delivery options.

✔ **Warehousing:**

5,000 square meter warehousing capacity in Poland.

✔ **Quality Control:**

In-House Laboratory facilitates quick and regular quality control, ensuring the highest standards for our bio-carbon products.

✔ **Customer Support:**

24/7 key account manager support ensures prompt issue resolution and continuous assistance, fostering strong, long-term partnerships.

✔ **Flexible Delivery Terms:**

Including FCA, DDU, and DDP to meet various customer needs.

SUSTAINABILITY

AT ULTIMA CARBON

100% FSC Certified:

All our charcoal products are 100% FSC certified, ensuring that our wood is sourced from responsibly managed forests that provide environmental, social, and economic benefits.

Sustainable Sourcing:

We are committed to sustainable sourcing practices that protect biodiversity and support local ecosystems. Our wood is harvested from forests that are managed to maintain their ecological health and productivity.

Reduced Carbon Footprint:

Our advanced carbonization technology reduces emissions and energy consumption during the production process, minimizing our overall carbon footprint and contributing to a cleaner environment.

ULTiMA

SUSTAINABILITY

AT ULTIMA CARBON

Eco-Friendly Production:

We use state-of-the-art retort ovens that maximize energy efficiency and reduce waste. Our production process is designed to utilize every part of the wood, leaving minimal waste and maximizing resource use.

European Deforestation Regulation (EUDR):

Ultima Carbon is committed to adhering to the new stringent EUDR. This regulation requires traceability of the entire supply chain, starting from the GPS coordinates of where the trees were cut. As both producers and importers within the EU, we can fully trace our supply chain, ensuring compliance with these regulations to avoid contributing to deforestation and forest degradation.
